

# *Infant Massage*

Become a **Certified Educator of Infant Massage**

- Teaching **infant massage** to parents is a rewarding opportunity to promote **secure attachment** through healthy parent-baby interactions.
- **Infant massage** assists with the beneficial growth and development of **baby's body, mind and spirit**.
- Massage can bring **relief** to complaints of **colic, constipation, and sleep difficulties**.
- With massage, parents use **touch**, our first language, to express **love, caring and respect**.

This is a **parent education program** based on **family strengths** that uses **nurturing touch and massage** to promote the physical and emotional well-being of babies, young children and their families.

**September 16-19, 2008**
